Delhi, India

Summary

AI & Data Science undergraduate (CGPA **8.8/10**) with direct founder-facing internship experience, 2 live AI-powered products shipped end-to-end, and a hands-on track record across customer discovery, PRD authoring, user journey design, and cross-functional delivery. Comfortable working closely with founders and product leaders, translating customer feedback into product requirements, and owning initiatives from problem identification through to launch in fast-paced SaaS environments.

Skills

Product & Design: Product Discovery, PRD & Feature Spec Writing, User Journey Mapping, Wireframing, Usability Testing, Competitive Analysis, Roadmap Prioritisation, Agile/Scrum, Release Notes, Product Documentation

Research & Validation: Customer Discovery, Stakeholder Interviews, Feedback Prioritisation, Adoption Metrics, Market Sizing, Go-to-Market Planning, OKRs

AI & Data: Python (Pandas, NumPy), SQL, EDA, LLMs, Generative AI, NLP, Power BI, Tableau, Google Analytics

Tools: Figma, Jira, Notion, IBM Watson Studio, AWS, Git/GitHub, Blockchain (Polygon)

Work Experience

Prodigal AI

Jul 2025 – Aug 2025

Strategy & Product Intern | Reporting directly to COO

Remote

- Worked directly with the COO across 2 concurrent AI products — conducted end-to-end customer and stakeholder discovery, synthesised feedback into structured PRDs and feature specifications, and mapped user journeys that reduced sprint ambiguity by ~30%.
- Identified a critical workflow gap in analyst KPI reporting; scoped and validated a Generative AI solution (Gemini 2.5 Flash) that eliminated a fully manual reporting cycle — authored go-to-market documentation and led a 4-person Agile team from concept to live launch. Awarded **Letter of Recommendation** by COO.

IBM SkillsBuild × CSRBOX

Jun 2024 – Jul 2024

Data Analytics Intern | 6-Week Summer Programme

Remote

- Led a team of 5 to analyse a 12-year women-centric dataset — translated complex data patterns into **SDG 16-aligned policy recommendations** and shipped an Analytics Dashboard that eliminated manual KPI reporting for non-technical stakeholders.

Live Products

NeeLedger — Blue Carbon Credit Traceability Platform | System Design, Blockchain, AI, GTM

Aug 2025 – Mar 2026

- Identified a structural trust gap in India's carbon markets — no verified system tracked blue carbon credits from issuance to retirement, enabling double-counting. Designed end-to-end system architecture (Phase 1: ownership, transfer, and sale tracking; Phase 2: MRV document linkage) achieving **100% credit lifecycle traceability**. [Live](#)
- Owned full product lifecycle — customer problem validation, roadmap design, UX wireframing, cross-functional delivery, and usability testing with real users; reached **National Finalist** standing across multiple competitions.

VoltIQ — AI Energy Optimisation Platform | LSTM, Predictive Analytics, User Validation

Dec 2025 – Mar 2026

- Sized a segment of **3Cr+ smart-meter households** overpaying **23% monthly**; mapped user adoption journey, defined KPIs before engineering began, and validated product decisions through real user interviews at each stage — shipped a live AI-powered optimisation platform. [Live](#)

Achievements

National Hackathon Track Record — Team Lead & Consistent Finalist

2024 – 2026

AI, SaaS & Product Strategy Competitions

India

- Top 5K / 2L+** registrations — EY Techathon 6.0 | **1st Runner-Up** — Paranox 2.0 | **Winner** — Hackstreet 4.0 (National) | **Finalist** — India Innovates 2026, Bharat Innovates 2026, Riverathon 1.0 (World Bank) | Top 12 — CodeZen 2.0.
- Led every competing squad as **Team Lead** — directed 4–6 person cross-functional teams through customer discovery, product build, and stakeholder demo under time-constrained conditions.

Education

Guru Gobind Singh Indraprastha University (GGSIPU)

Sep 2023 – Aug 2027

B.Tech, Artificial Intelligence & Data Science | CGPA: **8.8/10** (up to 5th Semester)

Delhi, India

- Coursework: ML, NLP, Neural Networks, Blockchain, Statistics, HCI, Cloud Computing, Operations Research | Campus Lead: Abhedya EDC, ARHAM EDC, GameDev Guild

Good Samaritan School, Jasola (CBSE)

2021 – 2023

Senior Secondary (PCM + CS) — **90.1%** | Secondary — **94.6%**

Delhi, India
